

Accessibility Statement of <https://tomaselli.at>

Information on conformity with accessibility requirements

Gourmet endeavors to make this website accessible in accordance with the Accessibility Act (BaFG), which implements the European Accessibility Directive (EU) 2019/882 on the accessibility requirements for products and services (EAA). In doing so, Gourmet is guided by the International Standard EN 301 549 and consequently by the WCAG (Web Content Accessibility Guidelines) Version 2.1, and is working to comply with them.

Information about the service provider GMS

GOURMET GmbH
Oberlaaerstraße 298
1230 Vienna

General description of the service offered on the website

The website **tomaselli.at** serves to promote services and products of Gourmet, as well as to promote the Gourmet brand.

Fulfillment of accessibility requirements

The following accessibility requirements are currently implemented on the website:

- **Screen reader:** screen magnifier and support for large fonts integrated in browsers, usable with the keyboard commands "Ctrl/Alt" and "+" / "Ctrl/Alt" and "-" / "Ctrl/Alt" and "0";
- **Keyboard navigation:** navigation is also possible exclusively by keyboard, usable by means of the Tab key and arrow keys on the keyboard to scroll up and down or access a specific link

The contents of the website are continuously revised and supplemented. A fully accessible preparation of all content currently represents a disproportionate burden for economic and organizational reasons and is therefore unfortunately not yet possible. However, we are continuously committed to making our digital offering accessible through the latest technologies and to continuously improving it technically.

Barriers that do not yet meet the legal requirements are being remedied as quickly as possible. Feedback and suggestions for improvement are particularly valuable and can be sent to the email address info@gourmet.at.

Competent supervisory authority

Pursuant to Section 21 BaFG, the Federal Office for Social Affairs and Disability Affairs (Social Ministry Service) is responsible for reviewing compliance with accessibility requirements.

Market Surveillance Authority for Digital Accessibility

Social Ministry Service Upper
